Packed with practical advice and real-world examples, this book will help you create a supportive environment where young people can develop their passions for STEM and pursue careers in technology. You will learn how to:

- Identify and nurture the natural talents of young people

- Create a culture of innovation and creativity in your classroom or home
- Provide opportunities for hands-on learning and experimentation
- Connect young people with mentors and role models in the technology field
- Prepare young people for the challenges and opportunities of a career in technology

Whether you are a teacher, a parent, or a mentor, this book will help you make a difference in the lives of young people and prepare them for success in the 21st century workforce.
