The book is written by Dr. David Agus, a leading cancer researcher and physician who has spent his career searching for new ways to treat cancer. In Breakthrough Cures, Dr. Agus shares his insights into the most promising new treatments for cancer, including immunotherapy, targeted therapy, and gene therapy. He also discusses the latest advances in early detection and prevention.

Breakthrough Cures is not just a book about cancer. It is also a book about hope. Dr. Agus believes that we are on the cusp of a new era in medicine, an era in which we will be able to cure many of the deadliest diseases that afflict humanity. He shares stories of patients who have defied the odds and survived cancer, and he offers a powerful message of hope for the future.

The Deadliest Diseases

The following are some of the deadliest diseases that affect humans:

- Cancer
- Heart disease
- Stroke
- Chronic obstructive pulmonary disease (COPD)
- Alzheimer's disease
- Diabetes
