A Memoir of War, Medicine and the Human Spirit

Jon Kerstetter's memoir *Crossings* is a powerful and moving account of his experiences as a US Army doctor who served in Iraq and Afghanistan. The book tells the story of Kerstetter's journey from a young idealist who wanted to make a difference in the world to a hardened veteran who struggled with the physical and emotional scars of war.

Kerstetter's writing is honest and unflinching, and he does not shy away from the horrors of war. He describes in graphic detail the injuries he witnessed and treated, and the emotional toll that the war took on him and his fellow soldiers. However, *Crossings* is not simply a war story. It is also a story of hope and redemption. Kerstetter shows how he was able to find meaning and purpose in his experiences, and how he learned to heal both himself and others.
