The Kennedy Space Center (KSC) is a NASA field center located on Merritt Island, Florida. It is one of the world's most important space launch facilities, and has been the site of many historic launches, including the Apollo 11 mission that landed the first humans on the Moon in 1969.

In addition to its role in space exploration, KSC is also a major tourist destination. Visitors can explore the center's many exhibits, which include a full-size replica of the Space Shuttle, a mock-up of the International Space Station, and a collection of artifacts from past space missions.

The book "NASA Kennedy Space Center: Images of Modern America" is a stunning collection of photographs that showcase the historical significance, scientific advancements, and engineering marvels of KSC.

The book features over 200 full-color photographs, many of which have never been published before.
